Weight Kg (Lb)	110 (242)	124 (273)	138 (304)	152 (335)

# rion accessories

Accessories are available for purchase with the greenhouse as well as after the sale. Accessorizing your greenhouse will assure greater benefits: protecting plants from unexpected temperature changes, collecting rain for watering plants inside the greenhouse (which is both economical and ecological), suitable lighting, and plant hangers to better utilize greenhouse space. All accessories beautifully merge gardener needs with mother nature.

## Base kit

Plastic Base Kit for all greenhouses extendable by 2' or 4'.

## Shade cloth

A high quality materialized knitted reflective screen. Provides optimal diffused light transmission to your plants that prevents UV damage. Lowers greenhouse temperature during hot days.

## Plant support

Easily integrated into the roof profiles.

## Roof window

Increases air circulation.

## Automatic window and louvered opener

Automatically opens and closes Roof Vents and Side Louver when temperature changes.

## Louver window

Substituted for a single panel in the back wall of the greenhouse. Enhances ventilation.

## Two tier staging

Ideal for potting or storage sizes:  
80 x 40 x 77 cm 2' 8" x 1'4" x 2'7"

## Rainwater gutters

Collects rain water and drain them. Recommended for both sides of the greenhouse.

## Solar light

Solar panel easily mounted any RION Greenhouse will provide "clean" bright light.

## Large louver

Replace any side-wall panels with a large Louvered Window to enhance ventilation.

sharing customer compliments.

**Thanks,  
Bob & Kathi**

...We're having fun doing it!!

Everyone:  
From a happy customer!  
I built a wooden base for my unit and installed a solar-powered heater into the wooden floor. Now heat comes up from the floor. Fascinating work!

**Regards,  
Ames**

Dear Folks:

During the fall of '03, I purchased, on line, one your GH44 greenhouses (& base) as a surprise Christmas gift for my wife Cindy. It arrived within days, all parts included and in good condition. I hid the five cartons and, indeed, surprised her Christmas morning. Come spring, we prepped the former dog kennel slab in the back yard and cleared dead trees (a series of blights hit a dozen different) in the area. Your assembly directions were precise and easy to follow. I am impressed with the quality and ingenuity of your design and production. The parts and pieces went together without problem. I've enclosed three photos to show off the result. To say the least, Cindy is very happy, and, as a result, so am I. PS We did the base/floor in pea gravel for a cushion when working within. I built the plant stands and potting table for her.

**Thank you!**  
**Tom**
