# Verandas

## When nature enters home...

It brings in the tranquility of green, together with the light and openness of the sky. Polygal products allow users to benefit from nature advantages while giving the best protection from weather's elements. Polygal Sheets - The perfect solution for Veranda Constructions.

- Excellent Insulation
- Controlled Daylight Transmission
- Virtually Unbreakable
- Flame Retardant
- Flexible and Easy to Install
- Lightweight
- UV Blocking Layer
- Environmentally Friendly

**Polygal Standard Sheets** double and triple layered, manufactured in various colors and degrees of transparency, are designed for use in most conventional roofing and glazing applications.

**Polygal Titan Sky's** internal cross-brace structure gives these panels twice the strength and rigidity of equivalent standard polycarbonate panels. Polygal Titan Sky provides a quality solution that is both intelligent and advanced for use where withstanding heavy loads is required. Titan Sky is available in 16mm thickness.

**Polygal Thermogal** unique inner X-brace structure provides extra-strength, rigidity and outstanding insulation. Available in different thicknesses, widths and colors. Ideal for low-pitched roofs and for glazing in closed structures with large-span openings.

TECHNICAL SUPPORT E-mail: techsupport@polygal.com

**Polygal Primalite** - Novel sheet selectively reflects a large portion of the Near Infra-Red solar radiation, while transmitting more of the visible light radiation.

**Polygal Silhouette** with its sophisticated and lustrous exterior surface, radiates elegance and good taste, available in a variety of formats, the Silhouette sheet features outstanding reflective qualities, making it an excellent choice and suitable for all daylight coverings.

**Polygal Primavert** (Polycoolite) sheet is specifically designed to supply plants natural solar light needs for photosynthesis. It blocks the UV, supplies high blue and red, and reflects heat from the unused green. It reflects undesirable excess heat from the infrared range.

Polygal is the leading manufacturer of structured Polycarbonate panels, and is known throughout the world for the outstanding quality of its products. Polygal was the first manufacturer in the world to create structured Polycarbonate panels, and over the last 30 years, has developed and produced a broad spectrum of these products, which are successfully covering a full array of structures worldwide.

Always look for the original sign

The data in this advertisement are provided in good faith and constitute general information without commitment, and no warranty is given or implied. Polycarbonate is a combustible thermoplastic that complies with various international standards, as customary in each country. Avoid exposure to excessive heat or aromatic cleaning solvents. Normal fire precautions should be taken to protect against combustion.
